CanREA Summits

Clean Power Finance Canada—A CanREA Summit

Held in downtown Toronto each June, this CanREA Summit brings together more than 300 professionals for a full day of discussions on project financing in Canada’s evolving energy market. Hosted by Presenting Sponsor CIBC, this is the only national Canadian conference dedicated to bridging the gap between the clean power sector and the finance and investment community.

Renewable Energy Quebec—A CanREA Summit

CanREA’s annual conference in Montreal has become a must for the key players of Quebec’s renewable energy and energy storage sectors. With a full day of conferences, panels and discussions, plus ample networking opportunities, the Summit focuses on discussing Quebec’s energy future, galvanizing attendees around the next milestones in Quebec’s ongoing energy transition.

Energy Storage Alberta—A CanREA Summit

Held annually in downtown Calgary, this CanREA Summit brings together more than 200 professionals, industry leaders and policymakers to discuss the pivotal role of energy storage in Alberta’s evolving energy landscape. Expert speakers focus on how energy-storage solutions can support the province’s electricity grid, from meeting growing demand to integrating more renewable energy.

CanREA Operators Summit

This event offers both sponsorship and exhibition opportunities. For details, see the exhibitor page.

“Partnering with CanREA on the **Clean Power Finance Canada Summit** provides a valuable platform to engage directly with industry leaders on the financial realities and opportunities shaping Canada’s power and energy storage markets. The discussions offer practical insights into risk, revenue structures, investment strategies and regulatory dynamics. Events like this are essential for aligning capital with market-ready solutions and advancing informed investment in a rapidly evolving sector.”

James Brooks, CIBC Capital Markets

Sponsorship opportunities

CanREA Connects networking receptions

The popular CanREA Connects series of cross-Canada networking events creates a vibrant platform for networking, learning and collaboration in numerous provincial and regional markets. Bringing together hundreds of key players, industry professionals, senior executives and decision-makers, these fun and relaxed events aim to foster valuable connections within the local wind, solar and energy storage sectors.

- The fall series takes place in Atlantic Canada, Quebec, Alberta & British Columbia each year.
- The spring series returns to Atlantic Canada & British Columbia each year.

Some spring CanREA Connects networking events follow our annual CanREA Summits in their respective cities. Get in touch with us to learn more about available combined opportunities.
